LIVE UNITED

Education

Success doesn't just happen. There are critical elements to being successful, and none are more important than education. A good education can set in motion a series of events that launch a person into a lifetime of making good choices!

Stuff the Bus: A program that puts school supplies in the hands of the teachers. They are on the front lines and know what children are in need. We can't do it without your help!

Providing the foundation for a better life

Income

It's the Big Things. We know that small things matter, but sometimes, life hands us a full-blown catastrophe. Natural disasters, job loss, house fires, homelessness, abuse. Where do you turn when life has you upside down? For many people in our community the place to turn is United Way. Our programs are there when everything has gone wrong.

VITA: FREE tax prep for low income families. VITA helps bring millions of tax dollars back into our community!

Walk for Warmth: A program that pays utility bills for families in our community who are struggling. Harsh winters and high unemployment make staying warm a problem for some. We have budget classes to help clients get a handle on their bills.

Lindsey's Success Closet: Helping men & women seeking jobs dress for SUCCESS! Clients are referred when they have an interview for a new job. We partner with Michigan Works. Donations of business clothing are accepted by appointment only.

Project Fresh: CCUW is the Market Master for the participating farmers and partners with MSU Extension. Project Fresh is a state program that offers low income seniors and WIC families coupons to purchase fresh local vegetables and fruits.

Health

At least you have your health. We hear this statement every day, but sadly it isn't true for thousands of people in our community. If you don't have access to good healthy choices, your body and mind suffer. United Way is partnering with others in the community to tackle some of the barriers.

Gas Assistance for Medical

Appointments: Partnering with St. Mary's/St. Charles Outreach Program to help those who have doctors' appointments who are short on money and need gas. Help is available every 90 days and all appointments are verified.

Alzheimer's Support Group: A wonderful group that helps those suffering with this terrible illness and their family members cope with the day to day living. The support group helps with emotional needs and the funds raised help cover the cost of items not covered by insurance.

Project Fresh: This program is a crossover for sure, not only does it bring dollars to the farmers, the low income seniors and WIC families are able to purchase fresh healthy veggies and fruits. This program offers an informational class on how to prepare healthy food. A true Win Win program!
